PROFILE

Determined quick learner with hands-on experience in JavaScript, TypeScript, Python, React, Node.js, and more.

My previous management experience has equipped me with a comprehensive skill set, encompassing a deep understanding of business processes, adept client collaboration, and exceptional self-organization and time management capabilities.

These skills have proven successful not only in the finance domain but also across diverse industries.

I'm enthusiastic about my Full-Stack Developer role and eager to contribute to innovative company growth.

WORK EXPERIENCE

2022-Present Fullstack Developer

Developed and optimized web applications using JavaScript, React, Redux, TypeScript, Node.js, and Express. Prioritized clean code, code reviews, and effective collaboration. Ensured workflow adherence and task reporting with Google Spreadsheet and ClickUp.

PROJECTS:

AI Chatbot - Innovative AI chatbot **powered by OpenAI's GPT-3 and DALL-E** models, delivering unparalleled conversational interactions and image-based responses.
